ADDITIONAL INGREDIENT INFORMATION

Aqua

Natural origin. Water. Solvent.

Aqua, Silk Amino Acids, Sodium Chloride, Benzoic Acid

Protein derivatives. Recommended as conditioning additives in all types of skin and hair care products. Excellent moisture-binding properties, producing a deep conditioning effect on the skin and improving the softness and handling characteristics of the hair. Particularly recommended for dry or damaged hair where it leaves a protective coating on the hair to increase the moisture retention on the hair surface.

Aloe Barbadensis Leaf Extract (20%)

Natural origin (plant-derived). Derived from the leaves of organic aloe plants. Excellent skin and hair nourishing properties. Helps rebuild skin and hair, increases blood flow, retains skin moisture and regulates the acid balance. Aloe Vera gel contains 75 well-known and important vitamins and minerals for the body. The most important vitamins: antioxidants, vitamin A (Beta-carotene), B12, C and E. Minerals: magnesium, manganese, zinc, copper, chrome, calcium, sodium, potassium and iron. Aloe vera has a cooling effect. Soothes both redness and itching. Relieves pain. Therefore it has good effect on scalp.

Tapioca Starch

Natural origin (plant-derived). Starch derived from the Cassava root. Viscosity stabiliser.

Dehydroxanthan Gum

Natural origin (plant-derived). Xanthan gum is a polysaccharide produced by the bacteria *Xanthomonas campestris*. The product obtained by dehydration of Xanthan gum. Styling function.

Glycerin

Natural origin (plant-derived). Vegetable ingredient derived from organic fats and oils. Moisturises, softens and preserves the skin and hair's natural moisture balance. Improves skin and hair elasticity. Provides shiny and healthy hair.

Hydrolyzed Wheat Protein

Natural origin (plant-derived). Wheat protein hydrolyzed. Provides moisture and balance to hair. Rebuilds damaged hair.

Hydrolyzed Wheat Starch

Natural origin (plant-derived). Wheat protein hydrolyzed. Provides moisture and balance to hair. Rebuilds damaged hair.

Panthenol

Synthetic origin. (B5) nourishes and protects hair. Good for dull and damaged hair. Restores volume and shine.

Silk Amino Acids

Natural origin (produced by animals). Derived from the silkworm cocoon.

Sodium Chloride

Natural origin (mineral-derived). The most common salt. Occurs naturally and is found in sea water and underground salt deposits. Thickening agent.

Parfum

Synthetic origin. Scent of orange with undertones of apple and vanilla.

Sodium Hydroxide

Natural origin (mineral derived). pH regulator.

Phenoxyethanol

Synthetic origin. Mild preservative approved by Nordic Ecolabel and AllergyCertified

Benzoic Acid

Synthetic origin. Can be found in some plants. Mild preservative approved by Nordic Ecolabel and AllergyCertified.

Dehydroacetic Acid

Synthetic origin. Mild preservative approved by Nordic Ecolabel and AllergyCertified.
