

**Natural or certified organic ingredients**

- Nordic Ecolabel the Swan and AllergyCertified
- Without silicone
- Part of Zenz Pure line. Without synthetic/essential perfume
- Gives hair a natural and shiny look with a medium hold
- Professional haircare that cares about your health and environment

Non-aerosol ecolabelled and allergy certified styling and hair fixing spray which gives medium hold after styling or in updos. Perfect to finish your hairstyle so it lasts all day. Gives hair a natural and shiny look with a medium hold. The hair spray has nourishing properties and is easy to brush off or wash away.

Without synthetic/essential perfume and therefore ideal for the whole family, children, pregnant women and scent-sensitive people.

**USE:** Use in wet or dry hair. Apply in wet hair to create a fuller look before blow-dry. Use in dry hair after Zenz Day Colour & Volume boost to achieve a lasting result. Suitable for all hair types.

**INGREDIENTS:** Alcohol Denat., Aqua, VP/VA Copolymer, Silk Amino Acids, Sodium Chloride, Phenoxyethanol, Benzoic Acid, Dehydroacetic Acid.

Made in Denmark.

Packaging: PE Bottle / PP Lid. Flammable: Contains alcohol.

**ADDITIONAL INGREDIENT INFORMATION**

**Alcohol Denat. (Isopropyl Alcohol)**

Synthetic and natural origin. The alcohol is from natural origin and the isopropyl alcohol (used to denaturate the alcohol) is synthetic. Used as a solubiliser for the rest of the ingredients.

**Aqua**

Natural origin. Water. Solvent.

**VP/VA Copolymer**

Synthetic origin. A polymer that helps to give the hair volume and strong hold.

**Aqua, Silk Amino Acids, Sodium Chloride, Benzoic Acid**

Protein derivatives. Recommended as conditioning additives in all types of skin and hair care products. Excellent moisture-binding properties, producing a deep conditioning effect on the skin and improving the softness and handling characteristics of the hair. Particularly recommended for dry or damaged hair where it leaves a protective coating on the hair to increase the moisture retention on the hair surface.

**Silk Amino Acids**

Natural origin (produced by animals). Derived from the silkworm cocoon.

**Sodium Chloride**

Natural origin (mineral-derived). The most common salt. Occurs naturally and is found in sea water and underground salt deposits. Thickening agent.

**Phenoxyethanol**

Synthetic origin. Mild preservative approved by Nordic Ecolabel and AllergyCertified.

**Benzoic Acid**

Synthetic origin. Can be found in some plants. Mild preservative approved by Nordic Ecolabel and AllergyCertified.

**Dehydroacetic Acid**

Synthetic origin. Mild preservative approved by Nordic Ecolabel and AllergyCertified.
