

Natural or certified organic ingredients

- 85% natural ingredients / pH 4
- Without silicone
- Fresh orange scent
- Nourishing hair mousse
- Gives hair extra volume with a natural look
- Professional haircare that cares about your health and environment

Light and nourishing hair mousse with emollient ingredients for hair to be styled and cared for at the same time. Holds the hairstyle in place without stiffness. Gives a natural look and great volume from the roots to the tips. Perfect for curly hair or to accentuate structured hair. Also well suited before styling with a round brush.

Natural essential oils give a fresh orange scent with undertones of rose and clove.

USE: Apply in towel dry hair. Apply with comb to create a classic wet look. Can also be mixed with Zenz Organic Oil Treatment or Zenz Styling Paste. Suitable for all hair types.

INGREDIENTS: Aqua, PVP, Cocamidopropyl Betaine, PEG-7 Glyceryl Cocoate, Silk Amino Acids, Polyquaternium-72, Sodium Chloride, Parfum, Phenoxyethanol, Benzoic Acid, Dehydroacetic Acid, D-limonene, Citronellol, Geraniol, Citral, Linalool, Eugenol.

85% of the total ingredients are of natural origin.

Made in Denmark.

Non-aerosol packaging.

For additional ingredient information, see next page.

**ADDITIONAL INGREDIENT INFORMATION**

Aqua

Natural origin. Water. Solvent.

PVP

Synthetic origin. A polymer that helps to give the hair hold.

Cocamidopropyl Betaine

Synthetic and natural origin (plant-derived). Mild soap substance derived from coconut oil and degradable in nature and modified with synthetic components. Good foaming ability and excellent thickening properties. Degradable in nature.

PEG-7 Glyceryl Cocoate

Synthetic and natural origin (plant-derived). A refatting agent, produced from synthetically modified fatty acids and glycerol from coconut oil. Main functions are: co-emulsifier, conditioning agent, emollient and moisturising.

Silk Amino Acids

Natural origin (produced by animals). Derived from the silkworm cocoon.

Polyquaternium-72

Synthetic origin. Curl perfecting styling agent designed to deliver touchable, lustrous curls that last. Provides exceptional curl memory benefits, great hold and excellent frizz control. Adds volume to hair.

Aqua, Silk Amino Acids, Sodium Chloride, Benzoic Acid:

Protein derivatives. Recommended as conditioning additives in all types of skin and hair care products. Excellent moisture-binding properties, producing a deep conditioning effect on the skin and improving the softness and handling characteristics of the hair. Particularly recommended for dry or damaged hair where it leaves a protective coating on the hair to increase the moisture retention on the hair surface.

Sodium Chloride

Natural origin (mineral-derived). The most common salt. Occurs naturally and is found in sea water and underground salt deposits. Thickening agent.

Parfum

Synthetic origin. Fresh orange scent with undertones of rose and clove.

Phenoxyethanol

Synthetic origin. Mild preservative approved by Nordic Ecolabel and AllergyCertified.

Benzoic Acid

Synthetic origin. Can be found in some plants. Mild preservative approved by Nordic Ecolabel and AllergyCertified.

Dehydroacetic Acid

Synthetic origin. Mild preservative approved by Nordic Ecolabel and AllergyCertified.

D-limonene, Citronellol, Geraniol, Citral, Linalool, Eugenol

Synthetic origin. Fragrance substances.
